

Philip Bobby Clement

Frontend Developer & UI/UX Designer
Lagos, Nigeria | Portfolio: acetekhportfolio.vercel.app

Professional Summary

Hybrid Frontend Developer & UI/UX Designer Detail oriented Frontend Developer and UI/UX Designer bridging the gap between aesthetic design and high performance software engineering. Proven track record of conceptualizing, designing, and deploying responsive web applications and e-commerce platforms for commercial clients. Adept at collaborating with backend engineering teams and leveraging database knowledge (MongoDB, PostgreSQL, MySQL) to build seamless, user centric digital experiences from the ground up.

Technical Skills

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS.
- **Databases:** MongoDB, PostgreSQL, MySQL.
- **UI/UX Design:** Figma, Wireframing, Rapid Prototyping, Interface Design.
- **Mobile Development:** Flutter (Active Development), Cross-platform UI principles.
- **Tools & Collaboration:** Git, GitHub, VS Code, Cross-functional Teamwork.

Projects

Freelance Frontend Developer & Designer (2024 – Present)

- Design and engineer custom web solutions for independent clients, managing projects from initial UI/UX conception (Figma) to final deployment.
- **Plugon Jerseys (2026):** Developed a high-performance e-commerce platform using HTML, Tailwind CSS, and JavaScript to enable seamless browsing and ordering of sports apparel.
- **Aruna Real Estate (2026):** Created a responsive property listing landing page featuring interactive contact forms and a built-in ROI plan showcase.
- **Crestone Living (2025):** Designed and built a corporate portfolio website showcasing interior decor services, client workflows, and project management processes.

Professional Experience

Frontend Developer & UI/UX Designer | VAS (June 2026 – Present)

- Collaborate directly with backend engineers to integrate APIs and develop responsive, commercial web applications for B2B clients.
- Leverage foundational knowledge of MongoDB, PostgreSQL, and MySQL to ensure seamless data flow and frontend-backend communication.
- Strictly adhere to company confidentiality guidelines while delivering high-performance, proprietary solutions.

Education

BSc in Information Technology | Middlesex University (Incoming / Expected Graduation: 2027)

Advanced Diploma in Software Engineering | APTECH Lekki Computer Education (Completed 2026)

- Graduated with Distinction
